

The Washington Post

Charlottesville, Va.: What do you think about using a harness to hold a dog in the back seat of a sedan? Any particular features to look for in the harness?

Dr. Marty Becker: New line of products I saw at Global Pet Expo from Kurgo and we featured in dogcars.com. There is a trolley that runs from the coat hooks in the car that keeps the dog in the back seat, keeps them from flying in a crash, but allows them to travel.
