### Easy travelling

Kurgo introduced new pet travel products: the "Collaps-a-bowl" (picture) is a clever dog travel bowl designed for dogs and owners on the go. The pop-it design lets the bowl collapse down for compact storage in the glove box or day pack. The bowl's gently angled sides allow easy access for the dog and the stay-put ridged bottom offers a sturdy base to avoid spills. The "Wander Pack" is strongly built to withstand rugged outdoor conditions, yet functional for a day trip. The ergonomic, padded spine support contours to the dog's back for a comfortable fit and provides weight distribution for the two saddlebags, which provide storage space for all travel essentials such as food, treats, toys, first-aid supplies and travel bowls.

The "Tru-Fit Smart Harness" (picture) is an easy-to-use automotive or walking harness designed with the dog's safety and comfort in mind. It's equipped with a secure loop

that is compatible with any vehicle seatbelt system and protects dogs, drivers and passengers while out on the road. The harness hooks onto the vehicle's seat belt and has a broad, padded chest plate that fits comfortably around the dog for added safety.
