### A COAT FOR ALL SEASONS

No more shopping for an entire wardrobe just to take the dog on a walk. The Kurgo Surf-n-Turf Coat is a three-season dog jacket that's both machine-washable and waterproof. And with a removable flotation layer, it is a life vest too. The coat comes in high-contrast colors and features reflective trim, two metal D-rings for leash connections and two transverse handles. The rip-stop material means it's not just all-weather, but tough enough for our most adventurous all-terrain dogs too. For dogs who brave the coldest weather, the Wander Coat can be bought separately and inserted into the shell for extra warmth.
