

Tails Of The City

Favorite pet travel products

It's hard to believe summer's end is nigh. (Although while the rest of the country cools off, we San Franciscans can finally look forward to our Indian Summer. Hooray!)

While many of you take this week to pack and plan for your last-of-the season getaways, I thought I'd share some of my favorite pet travel products to make taking your furry family members along that much easier:

3) **Dog Gone Smart pet bed:** These pet beds are super soft and squishy so they can be packed. The materials are non-toxic and the outer fabric is bacteria and dirt resistant for fast and no-fuss clean up. The entire bed is washable and quick drying. I'm also a fan of [Kurgo's Wander Bed](#) that rolls up in seconds and has a built-in handle for easy toting.
