## Hands-free leash

The latest Quantum leash converts a standard six-foot leash into a shoulder or waist leash to allow you to walk hands-free. With carabiners and slots worked into the leash fabric, it can be transformed into a double lead and can also be hitched around a post or tree when it's time to take a coffee break. Available in five color combinations, including pink and brown, black and orange, and red and blue.

## Dog flotation device

The Surf n Turf coat is a practical flotation device for dogs that enjoy water activities or [sailing](#). It converts from a life vest to a raincoat by simply removing the flotation liner. A fleecy liner (sold separately) also converts this outfit into a warm winter coat. It has a handle on the neck area should you need to grab your dog in a hurry, and its red and blue color scheme makes it easy to keep an eye on your pooch. It's available in a variety of sizes catering to both extra small and extra large dogs.
