kurgo collapsible travel bowl

A must for traveling canine companions, the Kurgo Collaps-a-bowl features a clever design that offers convenient feeding and watering on the go. The pop-up design lets the bowl collapse for compact storage in your glove box, travel bag or your dog's backpack. Angled sides allow easy access for Fido and the stay put ridged bottom offers a sturdy base to avoid spills. I've used mine over and over, and it still looks new! Available locally at Wags & Whiskers and Happy ReTales. (kurgo.com)
